

A large crowd of students is gathered in front of a modern building with a glass facade. The students are wearing various jackets and backpacks, suggesting a school or university setting. The building has multiple levels with visible staircases and balconies. The overall scene is busy and academic.

2016 THE ESSENTIALS

The Paris Dauphine Foundation,

was created in 2008 to help with the strategic development of Paris-Dauphine University and the social issues that concern it (openness to the rest of the world, equality of opportunity, student accommodation, etc.). It is one of the major factors in the university's development and in its growing reputation and influence in France and abroad.

The foundation supports excellence and solidarity at the university by running and financing innovative projects. It provides vital complementary resources to help fulfil its ambitions.

Excellence : academic research, entrepreneurship

Solidarity : Equal Opportunities Programme, development of international links, access to student accommodation.

To develop Dauphine's activities, the Foundation relies on partnerships with businesses, the support and generosity of the general public and on the mobilisation of all those involved with the university (alumni, students' parents, friends).
